THE WATER IS OURS

“Few things in life are as enjoyable as riding an Awakeboard in a beautiful setting”

– Jordan, Awake RÄVIK S rider

Welcome

Awake is a Swedish electric jetboard company with a vision to create exhilarating water sports experiences toward a zero-emission future.

Stay Awake

Becoming Awake

"Why do I need all this gear...?" – This question is what drove wakeboarder and Awake co-founder Philip Werner to build his first electric surfboard in 2012. The real journey began one year later, in 2013, with the launch of his first electric surfboard company.

In 2017, Philip and his two partners, Daniel Aronsson and Mikael Kajbring left and founded a new company with the purpose of creating the best and most desired, cutting-edge, high-performance electric jetboards on the market.

The next milestone came in the spring of 2022, with the launch of Awake's first eFoil, the Awake VINGA.

awake

Experience Awake

All Awake's electric jetboards are created with performance, safety, and ease of use in mind to give you an experience you can not be without.

We have a passion for technology, not just for the sake of technology but for what kind of experience it will be able to create for our riders.

Performance – we have selected the best materials, designed hulls for different types of rides, carefully engineered parts, and fine-tuned all electronics to maximize your ride – irrespectively if you are looking for adrenaline or just want to cruise.

Safety – is fundamental for Awake. We have automotive safety standards, 4 layers of safety in our batteries, and our eFoils are equipped with a fully covered impeller.

Ease of use – the Awake Flex battery, Click-to-Ride system, and our modular system testaments to making the Awake experience as smooth and easy as possible. Everything is made to enable you to focus on spending time where you want to be – on the water.

Awake Boards

Awake RÄVIK 3

Cruise | Family | Explore

A BOARD TO GROW WITH

Awake RÄVIK 3 / **A board to grow with**

The Awake RÄVIK 3, the board for the ones who want to become an electric surfer.

The V-shaped hull and generous volume makes the RÄVIK 3 stable and easy to learn on for the whole family. While also enabling some bigger turns for those who want to level up their riding.

Use the RÄVIK 3 on a perfectly calm day for a strapless adventure, always comfortable with the full covered deckpad. Attach one or two foot straps and play in the chop on a windy day.

The Awake RÄVIK 3, the perfect allround board.

Awake RÄVIK 3 / Specifications

Top speed:	57 kph / 35 mph
Acceleration:	0 – 50 kph / 30 mph in 4 sec
Weight:	21 kg / 46 lb
Riding time (SR)*:	Up to 30 min
Riding time (XR)**:	Up to 50 min
Rider modes:	ECO, SPORT, EXTREME
Hull shape:	M Shaped, Medium rocker, Wide tail
Dimensions (L/W/B):	179 x 62 x 26 cm / 71" x 25" x 10"
Commercial warranty***:	12 Months

*SR – Standard–Range battery – See pg. 44 for full information.
**XR – Extended–Range battery upgrade – See pg. 45 for full information.
***Legal Guarantee: 24 months (EU standard)

Awake RÄVIK 3

Awake RÄVIK S 22

Carve | Challenge | Extreme

IT'S A RUSH

Awake RÄVIK S 22 / **It's a rush**

Challenge yourself on every run. Push yourself further, feel everything. This is you, like never before. Push the boundaries of electric surfing with the new RÄVIK S.

The W-shaped, hydrodynamic hull, slim tail, and aggressive rocker enable deep carves, high jumps, and overall superior agility. Ride faster, always in total control no matter the conditions, even in the biggest waves or storms.

With updated modules such as speed controller, motor, and impeller. The Awake RÄVIK S 22 is made for high performance and extreme sessions.

The most extreme electric surfboard in the world.

Awake RÄVIK S 22 / Specifications

Top speed:	57 kph / 35 mph
Acceleration:	0 – 50 kph / 30 mph in 4 sec
Weight:	20 kg / 44 lb
Riding time (SR)*:	Up to 20 min
Riding time (XR)**:	Up to 30 min
Rider modes:	ECO, SPORT, EXTREME
Hull shape:	W shaped, Aggressive rocker, Slim tail
Dlmentsions (L/W/B):	175 x 61 x 27 cm / 69" x 24" x 11"
Commercial warranty***:	12 Months

*SR – Standard–Range battery – See pg. 44 for full information.
**XR – Extended–Range battery upgrade – See pg. 45 for full information.
***Legal Guarantee: 24 months (EU standard)

Awake RÄVIK S 22

Awake VINGA

Balance | Serenity | Flying

Taking the eFoil to new heights

Awake VINGA / **Taking the eFoil to new heights**

The Awake VINGA eFoil, stable but agile, powerful but precise. Which means there's something for everyone. Inexperienced riders can take their first flight on an eFoil with confidence, while the most experienced riders will test their limits by executing the most audacious maneuvers.

The VINGA are developed with safety in mind: the rounded wing shapes, soft edges, and the fully covered jet. And, of course, our signature 4-layer safety-protected Awake Flex batteries that power the eFoil.

Battery, mast, and board are connected in a matter of seconds. Awake's proprietary Click-to-Ride system means cumbersome hoses, screws, hatches, and cables are replaced by a modular snap-together system.

Awake VINGA / Specifications

Set up/pack up:	Click-to-Ride
Propulsion:	Fully shielded jet
Riding time (SR)*:	Up to 1 h 20 min
Riding time (XR)**:	Up to 2 h
Rider modes:	ECO, SPORT, EXTREME
Dimension (Board):	140 x 60 x 15 cm / 55" x 23,6" x 6"
Mast height	70 cm / 29"
Wing set:	Full carbon fiber
Commercial warranty***:	12 Months

*SR – Standard-Range battery – See pg. 44 for full information.
**XR – Extended-Range battery upgrade – See pg. 45 for full information.
***Legal Guarantee: 24 months (EU standard)
NOTE: Awake VINGA will be available in North America Q4 2022

Awake VINGA

Awake VINGA Powder Wing 1350

- Smooth but dynamic cruising
- Made for stable straights at speed but yet agile in turns
- For intermediate to advanced riders
- Strong and light carbon fiber construction
- Stab configuration: Powder 450
- Rounded edges for increased safety

Awake VINGA Powder Wing 1800

- Stable and forgiving cruising
- Made for high stability at low speed and yet playful in turns
- Easier for beginners or heavy riders
- Strong and light carbon fiber construction
- Stab configuration: Powder 450
- Rounded edges for increased safety

Awake Flex Battery

ONE BATTERY, SEVERAL BOARDS

Awake Flex Battery / **ONE battery, several boards**

The Awake Flex Battery System allows you to power both Awake VINGA and RÄVIK series with the same battery.

The most advanced design and features you can expect when it comes to safety. Self-monitoring of the Li-Ion cells, continuous electronic system analysis, and various mechanical layers of safety make it powerful, durable, and reliable.

Plugging the Flex Battery into your boards can be done in one movement thanks to our Click-to-Ride system. No cable, hatch, or over-complicated locking mechanism is found in our system, making it the easiest and fastest to handle and maintain on the market.

Awake Flex Battery / SR

Standard-Range battery

Specifications

Capacity: 1.9 kWh
Charging time: 1h 20 min*
Weight: 18 kg / 40 lb

Riding time

RÄVIK S: Up to 20 min
RÄVIK 3: Up to 30 min
VINGA: Up to 1h 20 min

*Passive cooling allows for continuous riding/charging cycles

Awake Flex Battery / XR

Extended-Range battery

Specifications

Capacity: 2.9 kWh
Charging time: 2h 00 min*
Weight: 22 kg / 48 lb

Riding time

RÄVIK S: Up to 30 min
RÄVIK 3: Up to 50 min
VINGA: Up to 2h

*Passive cooling allows for continuous riding/charging cycles

Cloud-connectivity / **The Awake App**

Awake Boards offers you the possibility to unlock and set different features in the smartphone App. These features are for safe use and comfort; no matter what experience you have, set the correct/preferred mode in the Awake App before you leave the shore, and you'll be safe.

Remote diagnostics allow for quick and convenient customer support. If abnormalities are detected in your board, our engineers can quickly diagnose any potential issue and guide you through the support process.

When performance and safety improvements occur, you will be able to update your firmware and software via our app.

Accessories

Flex Battery Charger

- High speed charger
- Efficient, and safe thanks to the battery monitoring system (BMS)
- Custom-built enclosure for plug-and-play functionality
- Secured during charging with Awake's industry-leading locking mechanism
- Waterproof AC Inlet, water splash resistant
- Soft handle for easy carry
- Charging time

Flex battery SR: 1h 20 min

Flex battery XR: 2h

RÄVIK Board bag kit

- Perfect-fit insert
- Dedicated accessories compartments
- Custom-fitting charger bag
- Large click-in-wheels
- Water resistant material
- Easy-drain with bottom zipper
- Internal straps for secure transportation

Awake Power key leash

- Magnetic safety feature to activate/deactivate the battery during riding and charging
- Overmoulded "Dead Man's Switch"
- Loose, short spring action
- Strong Dyneema material for superior quality

Awake RÄVIK Fins

- Awake x MFC performance fins
- RÄVIK S: Awake's custom full carbon fin design provides better grip in sharp turns, and control at higher speed
- RÄVIK 3: The custom twin fins set included with the board was designed around stability and forgiveness
- Together with the optimized hull shape, they provide an unparalleled stability at higher speed
- Fits Future 3/4" fin boxes

Awake RÄVIK Foot straps

- Custom made for comfort and adjustability
- Memory foam sole
- Adjustable tightness
- Four included screws fixes the bindings to the board (two per binding)
- 5 different positions are available on the board and battery

Awake Flex Hand Controller

- "Dynamite" grip wireless throttle for maximum freedom
- Long battery life
- Floating wrist strap
- Wireless induction charging
- 3 rider modes

THE AWAKE JOURNEY

The Awake journey

With the Swedish mainland as their birthplace, the Awake boards carry adventure, power & wilderness in their DNA.

Sharing sessions in the most stunning places, discovering the nature around us, and daring to explore remote un-ridden spots is what Awake riders live for. Sometimes, to appreciate these priceless moments, it is necessary to stop, sit on your board and look around.

Lost on a crystal blue lagoon, warmed up by the untouched frozen landscapes of the northern latitudes, or appreciating a sandy sunset in the middle eastern desert.

What makes the journey so precious is all the memories the Awake riders are making together.
